CHARGED WITH MANSLAUGHTER. THE DISTRICT-ATORNEY, ACTING ON THE COM-PLAINT OF JAMES 1. CARHART, AN ACTOR,

ALLEGED BLUNDER IN PRESCRIBING FOR A SIX-WEEKS'-OLD BABY

-HELD FOR THE GRAND JURY. Dr. Trumbull W. Cleaveland, a well-known phyician, who lives at No. 45 West Fiftieth-st., was held in \$5,000 ball for the Grand Jury by Magis-Olmsted in the West Side Police Court yesterday morning on a charge of manslaughter. The complainant against Dr. Cleaveland is James L.

complainant against Dr. Cleaveland is Carhart, of No. 365 Lexington-ave. In his complaint Mr. Carhart alleges that Dr. Cleaveland was consulted by Mrs. Carhart in the latter part of March, 1837, about the health of her infant daughter. Violet Irene, a child about six weeks od who appeared to be suffering from some slight adiment. Dr. Cleaveland wrote out a prescription, which was filled at the drug store of child, who soon afterward grew worse. Dr. Cleaveland was again summoned. The child was to be contrary to the general spirit of the con in great agony, and Dr. Cleaveland administered vention, but several solutions of the difficulties com a brandy injection, which gave some relief. He then wrote out another prescription, which he ordered to be given to the child, together with the first pre-

The child continued to grow worse, and Dr. W. H. Thompson, of No. 7 West Fifty-sixth-st., was called in. Dr. Thompson, it is alleged declared in the presence of Mrs. Carbart that a blunder had been committed. Despite all efforts the child died in April, 1897, and the complainant says that he believes the child's death was caused by the medicines WAIVED EXAMINATION.

allegations were laid before Magistrate Oir sted on Friday, and he issued a warrant for Dr. Cleaveland's arrest. The doctor was accordingly arrested in his house yesterday morning by Court Officer Broderick and taken before the Magistrate. Assistant District-Attorney Townsend appeared to prosecute him, but Dr. Cleaveland was unrepre-sented by counsel. He waived examination, and Magistrate Olmsted held him for trial. He was placed in a cell in the prison attached to the court, and remained there until 10 o'clock last night, when he succeeded in finding a bondsman.

Mr. Schweinfurth, the druggist, said yesterday afternoon that he remembered filling the prescriptions written by Dr. Cleaveland for Mrs. Carbart's 'I knew nothing. So long as we know that prescriptions are compounded properly, that is all that

Dr. Thempson, when informed of the arraignment of Dr. Cleaveland by a reporter, denied the language attributed to him in the complaint. "I recollect the case very we'l," he said. "I was called in the night before the child died. I am positive the child did not die from the effects of the medicines administered by Dr. Cleaveland. I remember telling the mother that the child had not long to live. There is nothing in it, I am quite

James L. Carhart, the complainant, is an actor, and is at present out of town. Mrs. Carhart could not be found yesterday at her home THE DISTRICT-ATTORNEY'S STATEMENT.

A statement in regard to the case was given out the District-Attorney through his secretary, | quirement. yesterday, in which it was said that the charge against Dr. Cleaveland was "manslaughter in the second degree, by culpable neglicence in the admin-

second degree, by culpable neglisence in the administration of certain doses of medicine to Violet Irene Carhart, a six-weeks-old child of James L. and Irene Carhart, of No. 305 Lexington-ave, on the 19th and 12th days of April 182, causing thereby the death of the Infant.

The statement goes on to say that the complainant, Mr. (arriart, for the last chirty years has appeared in many Shakespearian plays in this and other parts of the country. Quoting Mr. Carhart's complaint, the statement says he alleges that on April 10, 1854, his wife called upon Dr. Cleaveland to consult him about herself. The doctor had previously attended Mrs. Carhart at the birth of her naby, and while in conversation he inquired about the child was not quite well, and the doctor remarked. "I had better give her something."

"Make it very light, and don't give him any paregoric." Mrs. Carhart is alleged to have said and the doctor handled for forty-cight grains of said, deayn grains of bismuch subscarbonaic, one dram of tigetime of opium camphon, and these owners of camabiogard water, to be given in a teaspoonful of water every two hours.

complaint, and continued every two hours through the night and Sunday up to Monday morning about in o'clock-in all about twenty doses. The mother

10 o'clock—in all about twenty doses. The mother noticed on Monday morning that the child was breathing heavily, and, becoming alarmed, called in Dr. teavelend again.

"I will give you something e'se," he is a leged to have said, and then, it is asserted, he wrote a prescription calling for one and one-half drams of resortin, with three ounces of water, to be given a tenspoonful every two hours, a dose being three and three-quarter grains of resortin every two hours. According to Mr. Carhart the mother again warmed the doctor to make the medicine light, and he replied:

"This is very mild. You will find that this will fix her all right. Give them both together."

The prescription was prevared at the pharmacy of Swartz & Schwinfurth, Four-minth-st and Sixth-ave. The first dose was given at 1 o'clock on the afternoon of April 12. In about ten minutes a change came ever the baby. She opened her mouth and gasped, and appeared about to die. The had symutoms increased when the dose was repeated, and Dr. Charleiand was again summoned. According to Carhart's statement, he asked the mother. "What has she had?"

"Nothing but your medicine." Mrs. Carhart replied.

"The druggist must have made a mistake in put-

piled.
"The druggist must have made a mistake in putting it un," the doctor is then said to have remarked. "When did you give her the first dose?"
On learning about this, the doctor is said to have
administered hypodermic injections of brandy, on
which the baby screamed and turned purple.

THE SECOND DOCTOR CALLED IN. "I want to send for another doctor," Mrs. Car-hart then demanded, according to her husband's

"I understand the case perfectly, and if you are going to send for another physician, I think you should allow me to select my own physician," Dr. Cleavelard is alleged to have said. "My prescriptions are all right. I wish, if you insist on having some one else, you would let me send for a man with whom I work. I will get a man whose worl is taken in court."

"What is this doctor?" Mr. Carhart says his wife then asked. "I hope you will not need aim in court."

out."

Pr. Thompson was finally called in, and Dr. Cleaveland is alleged to have tool him that he gave the baby camphorated the ture of optim and resorcia.

"Blunder this time." Pr. Thompson is alleged to have replied in undertones. "This is the heart. The heart valve is open."

EXPERT OPINION ORTAINED.

The baby is said by Mr. Carbart to have contimued under Dr. Cleaveland's treatment after this hart is alleged, in the District-Attorney's stat ment, to have insisted upon having an autopsy made, and Dr. Cheaveland consented, if he was allowed to perform it. "When I objected to his define it." Mrs. Carhart continued, "he dissunded me by picturing how terribe it would be for me to think of my fluid bank as all cut to pleces and I was dissuaded from having it done, but the baby's sudden collapse immediately after its tables. as all cut to pleece and I was discussed from having it done, but the baby's sudden collapse immediately after its taking the prescription given by Dr. Cleaveland impressed me so strongly that the child had been poisoned to death, that I could not disabuse my mind of the trouble of It. After I had regained my strength. I consulted many physicians of great prominence in this country. Principally I recall a conversation with Professor T. Morgan Rotch, professor of children's diseases in Harvard University, and he was most emporate in destarring that if any child took those drugs and those doses he was poisoned to death. He said further that he never heard of a more barefaced deed than what this man had done. Any of the standard works of thern, suites, if you consult them, will satisfy you in about five minutes reading. Other physicians, in duchas Dr. Jacobi, Dr. Judson C. Smith and Professor Pellew, of Columbia, are quoted in the complaint as having made simuar statements. Affidavits made by these practitioners are mentioned in the complaint.

PROSECUTES TO SAVE OTHERS. 'Mrs. Carhart's only desire, she said, in this case."

the District-Attorney's statement adds. "Is to prevent other mothers from suffering as she has and to save the lives of other hables. At one time before realizing that the District-Attorney was the proper officer to consult in relation to this case she was introduced to a civil lawyer with the understanding, as she supposed, that he was to prepare her case from its legal standpoint for the District-Attorney's office, and when she found that the lawyer was preparing a civil action she demanded that she immediately introduced to the District-Attorney by the lawyer, as it was not money that she wanted, but lastice in this case.

"When bunsel introduced her by letter to District-Attorney Gardiner, the District-Attorney, after consulting with her, assigned Assistant District-Attorney Robert Townsend to the consideration of the case. Assistant District-Attorney Townsend has been several weeks in getting the matter prepared to properly present it to the Masis-state's court, as it is the rule prescribed by Dis-

trict-Attorney Gardiner that, where the defendant resides within the jurisdiction of the court, the complainant should in the first instance lodge the facts with a Magistrate. Pursuant to this rule, Assistant District-Attorney Townsend has presented the complaint, together with the affloatis above referred to, to Police Magistrate Olmsted.

"The claim on the part of the People is that the drugs prescribed would cause the death of a healthy child of that age, and that we care not whether the certificate of death entered by Dr. Cleaveland gives any other cause for it."

TO PROTECT INDUSTRIAL PROPERTY.

REPORT OF THE AMERICAN DELEGATES TO THE

Washington, March 12.-The full report of the conference of the Union for the Protection of Industrial Property, which met at Brussels in December last, has been received from the gates representing the United States-Bellamy United States Minister to Belgium, and Francis Forbes-and is of marked interest. There were present at the conference not only delegates from fifteen of the States of the Union, but also from seven countries which have not yet adhered to it, among them Germany and Japan. The prop ositions for amendment of the convention submitted by the United States, looking toward reciprocity in matter of fees, the requirements of working Swartz & Schweinfurth, at Sixth-ave, and Forty-ninth-st., and the medicine was administered to certain other countries, were held by the conference to be contrary to the general spirit of the conplained of were suggested which would not be obnoxious to it.

The United States delegates took an active in terest in the discussion of changes proposed in the agreement respecting the international registration of trade-marks, though this country is not at present a party to it. The purpose of this agreement is to make the International Bureau, a Berne, the centre of a cheap registration which shall be efficient over the territory of the adhering States. This registration is regarded as extremely administered by Dr. Cleaveland, and he has asked desirable, and is practically a necessity if Ameritant Dr. Cleaveland be dealt with according to law. foreign trade, as unless their trade-marks are registered in each of the countries with which they have or wish to have an extensive trade they they have or wish to have an extensive trade they are likely to find their goods stopped at the custom house or even seized as being an infringement of the rights of some citizen of the country who has knowingly appropriated their trade-mark and had it registered. This has, in fact, frequently happened especially in Germany. A United States manufacturing firm whose trade-mark is known from one end of the country to the other recently complained to the Patent Office that the trade-mark had been copied and registered by a German manufacturer, who was able, by virtue of his registration, to stop its trade in that country. The same thing is said to have happened to an English manufacturer whose trade-mark is known all over the world, who had, however, failed to register it himself in Germany. The fee for this international registration was reduced to 100 francs for the first mark and 50 francs for each of all other marks deposited for registration at the same time by the same owner.

mark and so france for each of an etime by the same owner.

Annexed to the report are a number of papers of great interest. Among these is a statement made by the German delegates in which they urge the extension of the delay of priority to one year instead of seven months, and abolition of forfeiture of patents for non-working. They seem to make amendment as to those two points the condition of their adhesion to the convention. Both of these are favored by the United States delegates as being in the interest of American inventors.

Among the other papers is a statement of the inventions excluded from protection in a number of foreign countries, and also one showing the requirements as to working the invention made in certain countries. In some, failure to manufacture the invention in the country within one year invalidates a patent granted on that invention. In others, two, or even three, years are allowed, and importation of goods made under the patent is prohibited. This means that the manufacturer of an American invention must establish factories in each of these countries, and is an onerous requirement.

GEORGIA BUSINESS ABANDONED.

nty-six insurance companies which, on account licenses, have been debarred from soliciting or writ ing insurance in Georgia in 1838. The list includes the following companies in this city: Mutual Fire, Great Western Lloyds, New-York Fire Loyds, Mutual Lloyds Nederland Life, United States Office, National Accident Society, United Life Asso-ciation, Mercantile Credit and Guarantee Company ciation, Mercautile Credit and Guarantee Company. The reasons for the omission by these companies to renew their licenses are various. The Gree Western Loyds withdrew in December from business in Georgia on account of the ubsatisfactory nature of its previous operations there and the poor outlook. The Mutual Lloyds has gone out of existence within the last year, but its risks have been reinsured in the Lincoln Fire Instrance Company, of this city whose application for a Georgia license has been granted. The Nederland Life insurance Company it is said, teok ait to new license in Georgia because it ceased several months ago writing any new United States business.

EXPORTING CUT GLASS.

most lines, and another laurel has just been added to Columbia's commercial crown. Until reto this country from Stroubridge, England, Hig-gins & Scher, of No. 54 West Twenty-second-st., have reversed the former practice, for they are now experting cut glass to Europe.

son Line, salled for Hull, earrying in her cargo a magnificent cut-glass service made to order by Higgins & Seiter for Ethan A. Hitchcock, United States Ambassador to Russia. The goods will be forwarded from Hu'l to St. Petersburg with great

Mr. Hitchcock, at a banquet given to him in the Russian capital about two months ago, asserted Russian capital about two months ago, asserted that America could produce out glass finer than the finest products of Stroubridge or any other place in Europe. His host, a loyal subject of the Czar, disputed his assertion, whereupon a wager was lad, the Ambassador being allowed to have three months in which to "make good." He cabled hiscains & Sciter, who did the most rapid work possible to fill the order in time to let Mr. Hitchwork win his hists shining rubles. They finished the order in time and have cabled the Ambassador to make his mind easy.

The service included goblets, clarets, sameer-cleanagasnes, wines, round-howl sherries, decanters, carafes and lemonade set. That it is a complete sinces is shown by the following extract from a letter just received by the firm from a friend of the Ambassador, who also ordered a service, in which he says:

"The out-glass service you have made for me is just."

STEAMBOAT SEASON OPENS. The Citizens' Line of model steamers, the Sara-

toga and the City of Troy, plying between New-York and Troy, will resume their trips Tuesday, and will leave the West Tenth-st, pler, this city, daily at 6 p. m., except Saturday. The Citizens' Steamboat Company, of Troy, makes it a point annually to put its two splendid boats, the Sarathe hull of the City of Troy has been entirely rehullt, not a single stick of the original hull re-maining. These popular steamers make prompt connections at Troy with the Delaware and Hudconnections at Trey with the Delaware and Hud-son and Fitchburg railroads for Saratoga, Lake George, Adirondocka, Montreal and all Northern points and Eastern points. The boat leaving New-York Sunday evening touches at Albany on Mon-day morning. These steamers are first class in every particular, and have been greatly improved in speed. The dining-tooms have been entirely re-modelled, and are now separate and distinct from all sleeping apartments. Powerful searchights are also a prominent feature of each beat's equipment,

CIGARMAKERS STRIKE.

Cigar makers and packers to the number of 380 Seventy-first-st, and Avenue A, went out on strikyesterday afternoon against a proposed reduction to he made, which in many instances reaches as high as 25 per cent. They also protested against the combination of hand and machine work. Members of the firm declare the strikers had no legitimate grievance, and refused to discuss their affairs for publication. The strikers have many women and girls among them.

PULLERSON COMMITTED FOR TRIAL. Levi M. Pullerson, the negro murderer of Kate Smith, was straigned in the Jefferson Market Police Court yesterday. Magistrate Simms committed him to the Torobs to awali trial. An autopsy on the woman at Helievie Hosvital shows that the cause of death was strangulation.

CONTRACT FOR SEWERS IN MEXICO.

ABOUT ONE HUNDRED MILES OF PIPE TO BE LAID

have been awarded the contract for constructing a sewerage system for the entire city of Guadala jars, capital of the State of Jalisco, Mexico. Mr. For said to-day that about one hundred miles of pipe will be used, and that they will receive \$1,050,000 for the work.

LEITER WHEAT SOLD AT "MARKET PRICE."

THERE HAVE BEEN SIX MILLION BUSHELS DIS-POSED OF ALREADY.

Chicago, March 12.-Allen Grier, Zeller & Co., the chief brokers for Joseph Letter, to-day made formal application to the Board of Directors of the Chi-cago Board of Trade for the fixing of a marginal price on May wheat contracts. This action, it is believed, arises from the requests for margins believed, arises from the requests for marsins which were made yesterday of Mr. Leiter by the bear contingent, amounting in some instances, according to Mr. Leiter, to 25 cents a bushel.

The biggest sale of cash when that has yet been made by Mr. Leiter took place to-day. Counselman & Dav purchased an even two million bushels. What the price for this enormous lot was could not be learned. Mr. Leiter merely stating that it was made at "market price."

This makes a total of six million bushels of the Leiter contract grade wheat disposed of. The trade had no intimation of the sale until after the close of the session.

NEW CORPORATIONS IN THIS STATE. Albany, March 12.-The following stock com panies were incorporated to-day.

The S. V. Interior Telephone Company, of New-York City, to manufacture electric devices; capital, \$30.00 Directors, R. G. Vassar and J. G. Smith, of New-York City, J. D. Anderson and W. B. Dall, of Brooklyn, and C. C. Bean, G. S. Taft and C. A. Dall, of Montelair, N. J.

The Palmer Land and Timber Company, of New-York City; capital, \$25,000; directors, L. M. Palmer, Henry U. Palmer, M. M. Miller and A. W. Brig-ham of New-York City. Birmingham & Co., of Brooklyn, to manufacture clothing; capital, \$19,000. Directors, Thomas Bir-mingham, M. P. Smith and W. R. Smith, of Brook-

American Electrical Novelty and Manufacturing Company, of New-York City; capital, \$25,000, Directors, Conrol Hubert, Maurice Hartman and Joseph Harwich, of New-York City.

The American Maltene Company, of New-York City; enpital, Kö.00. Directors, Jacob Ruppert, Theodore Welcker, John G. Gillig, H. A. Schalk, Jacob Ruppert, Ir., Frank Ruppert and George Ruppert, of New-York City.
